

Datasheet

Xtorm Fuel Series 5

Features

- 27,000mAh battery capacity – at least 5x smartphone charge
- 1x 67W USB-C PD port – even charges small laptops
- 1x 27W USB-D PD port & 1x 18W USB-A QC3.0 port
- Smart digital display with current battery percentage
- Robust and stylish design

Description

This fast FS5 Power Bank with high capacity of 27,000mAh has 3 USB ports. Effortless fast-charging with the 67W UltraCharge USB-C PD output.

With USB-C PD output and a robust capacity of 27,000 mAh, the power bank supports technicians who need to keep their fusion splicer running in the field

Xtorm Fuel Series 5

Specifications

Capacity	27000 mAh
Power	67 W
Dimensions (L x W x H)	17x8x3 cm
Input Type	USB-C PD
Output Type	USB-A Quick Charge 3.0, USB-C PD
Number of Outputs	3
Output 1	USB-C PD / 67 W
Output 2	USB-C PD / 27 W
Output 3	USB-A Quick Charge 3.0 / 18 W
Material	100% Recycled Plastics, ABS, PC
Water Resistant	N/A
Charging Time	3.0 Hours
Solar	False
