

CORNING

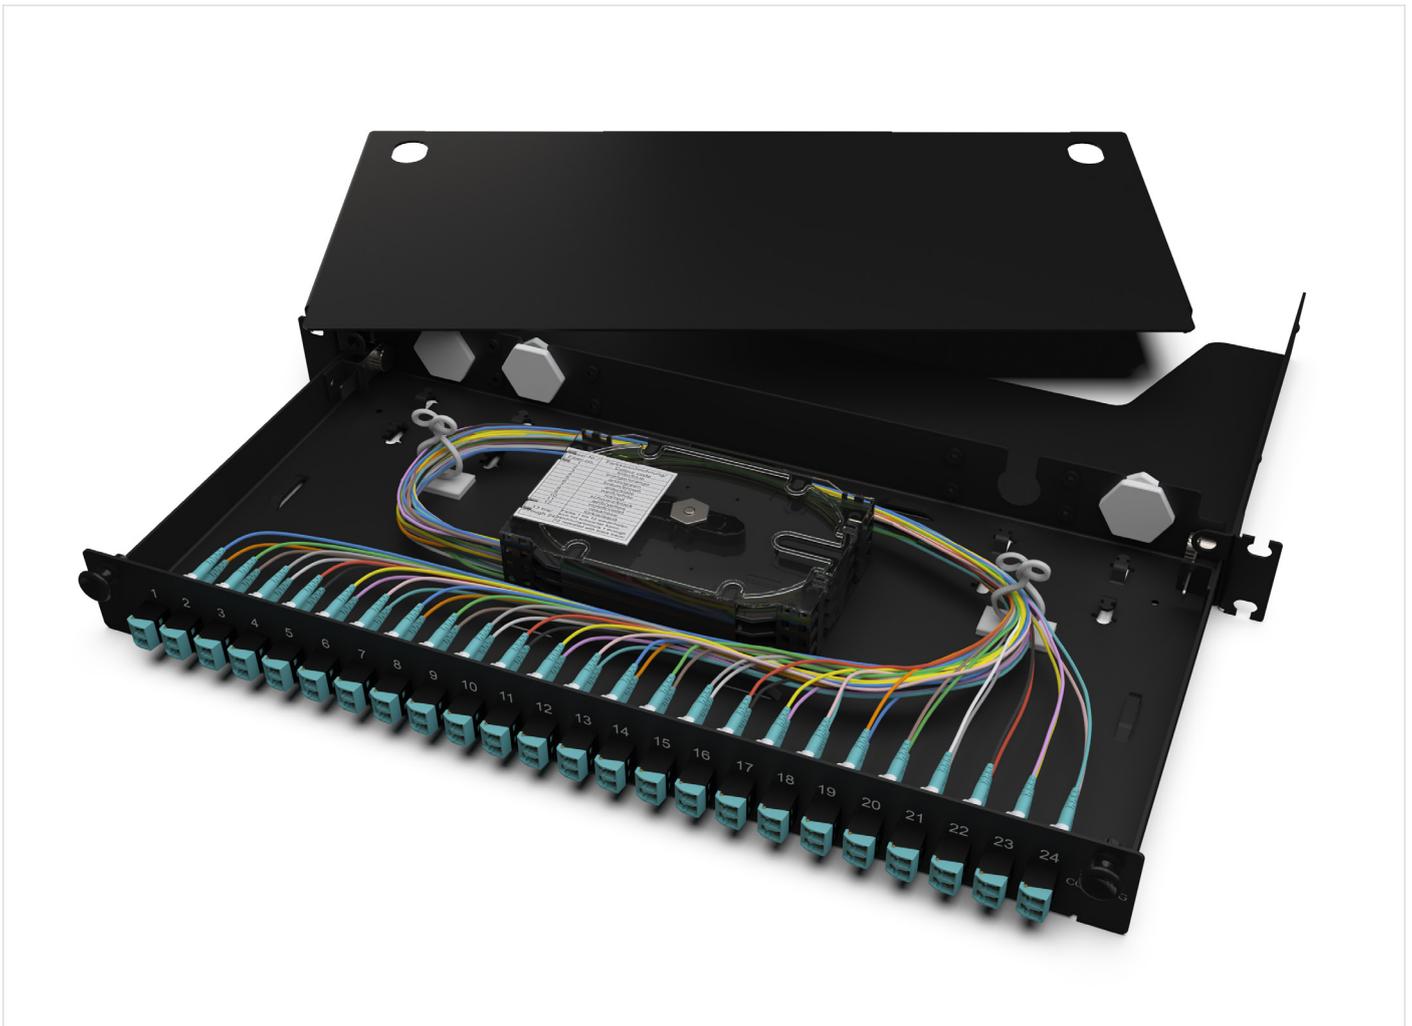

Everon[®] LAN1 Fibre Housing

Introduction

Our Everon® LAN1 Fibre Housings are designed to fulfill all your connectivity needs in any enterprise cabling installation that is based in a 19-inch rack. Whether you have to cable a building backbone, a small to medium-sized campus network or even a low density distribution frame, the LAN1 Fibre Housings always offer the right answer. The three basic options of the product family give you flexibility and offer a panel for every installation:

- Equipped with adapters and splice packs for maximum protection and easy segregation of fibres the fully loaded housing option is ready for fusion splicing.
- The housing variation with adapters and splice bridge offers an economic alternative for fusion splicing applications, saving time while routing and splicing the fibres inside the housing.
- For a low fibre count installation with either pre-terminated assemblies or using UniCam® NPC+ or FuseLite® 2 connectors for field termination. The housing comes with a front panel including adapters that match your choice of connectivity. Accessories for pre-terminated assemblies or Plug & Play™ or EDGE™ solutions trunks and FTTD/FTTO applications have to be ordered separately.

Everon LAN1 Fibre Housing, 36 Fibres with Adapters

Everon LAN1 Fibre Housing, 48 Fibres with Splice Pack

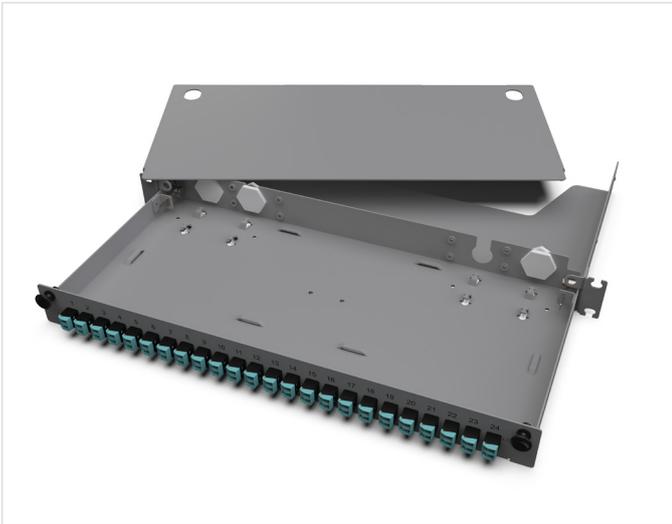

Everon LAN1 Fibre Housing, 96 Fibres with MFT Splice Cassette

Everon LAN1 Fibre Housing, 48 Fibres Stackable Splicing Bridge

Everon® LAN1 Fibre Housing

Everon LAN1 Fibre Housing, 48 Fibres with Adapters

Everon LAN1 Fibre Housing, 24 Fibres with Splice Pack

Features and Benefits

Easy to remove top cover

No tools needed

Housing made of aluminium

Lightweight, but robust

Quick-mount feature

Allows single-person mounting of housing

Splice capacity of up to 96 fibres in 1U

Segmentation of fusion splices with splice packs of 12 fibres each or cassettes with 24 fibres each

Accommodate different termination methods

Pigtail splicing, field connectorisation, pre-terminated cables, Plug & Play™ or EDGE™ trunks can be installed in the same housing

Adapters with ceramic inserts and LC duplex with shutters

Minimal insertion loss and clean connectors

Low installation depth

Mountable in shallow cabinets or racks

Available in black or grey

Colour can be chosen to best suit the application

Multiple labelling options

Port numbering above adapter or customised labels

Grounding Prepared

Grounding preparation for entire housing, including front panel

900 µm pigtails and 250 µm fibre are Telcordia colour-coded

that reduce installation time during fibre identification

Pigtails are pre-stripped to 250 µm and pre-routed

for configurations with splice trays

900 µm TB (Easy Strip) – reduces stripping time

Ordering Information

Part Number	Height (unit)	Housing Colour	Dimensions (W x D x H)
Everon LAN1 Fibre Housing	1U	Black	483 x 233 x 44 mm
Everon LAN1 Fibre Housing	1U	Grey	483 x 233 x 44 mm

Field Termination with Corning Field-Installable Connectors or Pre-terminated Assemblies

Everon LAN1 Fibre Housing, 48 fibres with adapters

Partially loaded panels (or Breakout versions) are available with LC, SC, ST® compatible or LSH connector interface and come equipped with fibre adapters. They are ideal for direct termination with UniCam® NPC+ or FuseLite® 2 connectors or fusion splicing with the help of the Corning splice packs.

For details on the field-installable connectors, we have an extensive [resource centre online](#), that provides helpful information on installation methods, technical resources, videos and links to the products in the online catalogue, accessible [here](#).

Everon® LAN1 Fibre Housings offer the possibility to use different additional accessories for cable strain-relief to be placed at the back of the housing to enable the use of:

- Pre-terminated cable assemblies, such as connectorised MIC™ or Breakout Tight Buffer cables
- Plug & Play™ or EDGE™ Solutions trunks
- Direct termination on low-fibre-count tight-buffered cables

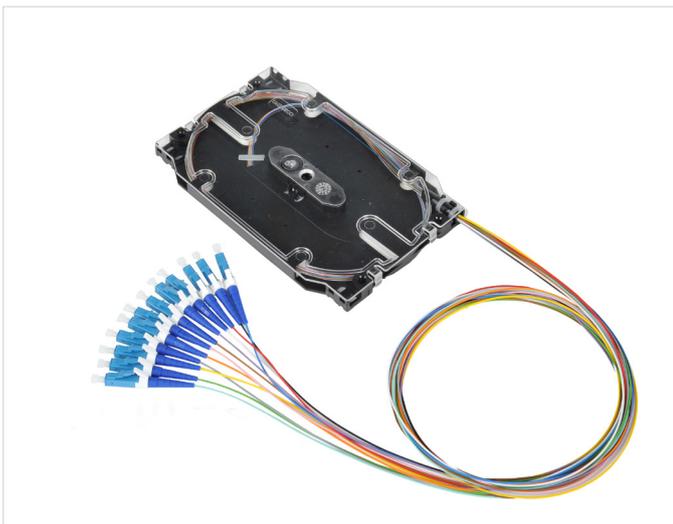

Sample Bill of Materials

Part Number	Product Description	Amount	Unit
LAN1-12E7-ADPT-B	1U Everon LAN1 Fibre Housing, 12 Fibres, SC Duplex MM/OM3/4	1	pcs
012T8X-32188E2G	12x MM/OM3 FREEDM™ Tight Buffer Indoor/Outdoor Cable Dca-s1a, d1, a1	250	m
95-050-41-X	SC MM/OM3 UniCam® High-Performance Connector	12	pcs
Toolkit Recommended			
TKT-UNICAM-PFC	UniCam™ High-Performance Toolkit	1	pcs

UniCam Connectors and High-Performance UniCam Toolkit

Splice Packs

LC SM/OS2 Universal Splice Pack

Universal Everon® LAN1 Splice Packs are suitable for Everon LAN1 Fibre Housings which provide up to 96-fibre (48-port) capacity for LC duplex and 48-fibre (24-port) capacity for SC duplex or ST® compatible connectivity.

The easiest combination when fusion splicing is using a gel-free 250 µm cable, such as the FREEDM™ gel-free Indoor/Outdoor cable.

Everon LAN1 Fibre Housings offer the possibility to use different additional accessories for cable strain-relief to be placed at the back of the housing to enable the use of:

- Splice packs include 12 pigtails of 900 µm TB (Easy Strip 150 cm) fibres pre-stripped to 250 µm
- Fibres are Telcordia colour-coded on both 900 µm and 250 µm layers
- Pigtails are 2-metres in length
- Splice packs are delivered with transparent cover and both heat-shrink and crimp splice organiser

Ordering Information

Part Number	Product Description
SP12-03Q-S8	LC MM/OM4 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-03Q-S8-V	LC MM/OM4 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover, violet boots
SP12-03T-S8	LC MM/OM3 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-02R-S8	LC SM/OS2 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-39Q-S8	SC MM/OM4 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-39T-S8	SC MM/OM3 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-58R-S8	SC SM/OS2 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-50T-S8	ST MM/OM3 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover
SP12-61R-S8	ST SM/OS2 Universal Splice Pack (heat-shrink/crimp) including 12 pigtails and cover

LAN1 Housing and Multifibre Cable Assemblies

Corning's pre-terminated multifibre assemblies use high-quality Corning® ClearCurve® multimode fibres to withstand tight bends and challenging cabling routes with substantially less signal loss than conventional multimode fibre. Corning® SMF-28® Ultra single-mode fibres combine industry-leading attenuation and improved macrobend performance.

As the industry's leading supplier of fibre, our state-of-the-art manufacturing process for cable assemblies ensures unsurpassed fibre and connector performance that meets and exceeds industry standards for connector reflectance and insertion loss. Low-loss connectivity enables system design flexibility for your application.

Reverse polarity LC Uniboot connectors allow for a quick-and-easy conversion of polarity in the field without exposing the fibres or needing any tools. The slim, round, 2-fibre cable allows it to carry fibres of the Uniboot-style duplex connectors, reducing the cable bulk when routing and providing improved handling in high-density applications.

Cable Assemblies shown on the next page need to be ordered with an Everon® LAN1 Housing, ADPT style (refer to housing ordering grid on page 5).

Everon LAN1 Multifibre Housing, 72 Fibres

Multifibre Cable Assemblies – Ordering Information

Corning multifibre cable assemblies can be ordered in a few easy steps. The steps involve the selection of pulling grip, connector(s), fibre count, fibre type, leg diameter, leg length, polarity, and total length of product. The steps are listed below.

1 Select grip.

- C = No pulling grip
- A = Pulling grip on one end (packaged outside reel)
- B = Pulling grips on both ends (first packaged outside reel, second packaged inside reel)

2 Select connector on first end. (packaged outside reel)

Single-mode:

- 00 = Pigtail*
- 02 = LC Simplex UPC
- 04 = LC Duplex UPC
- 18 = LC Duplex APC
- 22 = LC Simplex APC
- 44 = SC Simplex APC
- 58 = SC Simplex UPC
- 66 = SC Duplex APC
- 72 = SC Duplex UPC
- 78 = LC Duplex Uniboot UPC
- 80 = LC Duplex Uniboot APC
- MU = MDC UPC Senior
- MA = MDC APC Senior
- NU = SN UPC
- NA = SN APC

Multimode:

- 00 = Pigtail*
- 03 = LC Simplex
- 05 = LC Duplex
- 39 = SC Simplex
- 57 = SC Duplex
- 79 = LC Duplex Uniboot
- MM = MDC UPC Senior
- NM = SN UPC

3 Select connector on second end. (packaged inside reel)

See selection under 2.

4 Select fibre count.

- 08 = 8 fibres
- 12 = 12 fibres
- 24 = 24 fibres
- 36 = 36 fibres
- 48 = 48 fibres
- 72 = 72 fibres
- 96 = 96 fibres
- E4 = 144 fibres
- K2 = 192 fibres
- U8 = 288 fibres
- AE = 384 fibres (900 µm legs only)
- AK = 432 fibres (900 µm legs only)

5 Select fibre type.

- T = 50 µm Multimode (OM3)
- Q = 50 µm Multimode (OM4)
- V = 50 µm Wideband Multimode (OM5)
- G = Single-mode Ultra (OS2)

6 Defines cable type.

- LZ = LSZH™

7 Defines cable flame rating.

- B = EU CPR class B2ca

8 Select leg length on first end.

- O = Pigtail*
- J = 300 mm
- C = 400 mm
- U = 500 mm
- K = 600 mm
- W = 700 mm
- D = 800 mm
- I = 900 mm
- L = 1,000 mm
- M = 1,200 mm
- B = 1,500 mm
- P = 1,800 mm
- Q = 2,000 mm

9 Select leg OD on first end.

- O = Pigtail*
- A = 2.0 mm
- B = 900 µm
- D = 1.6 mm†

10 Select leg length on second end. See selection under 8.

11 Select leg OD on second end. See selection under 9.

12 Select polarity.

- C = Classic (Type-B)
- P = Straight-through (Type-A)

13 Select cable length in meters.

- 003-200 M
- Assembly length is measured from furcation point to furcation point. (+1/-0 m)

* Pigtail available on straight polarity only.

† Only available for MDC, SN or LC Uniboot connector types.

Additional leg lengths and customised staggering for EDGE™ and Centrix™ hardware available upon request.

For OM4 heather violet, please add -VI at the end of the part number or contact Corning Customer Care at 00800 2676 4641 or cc.emea@corning.com.

Everon® LAN1 Fibre Housing – Hybrid Overview

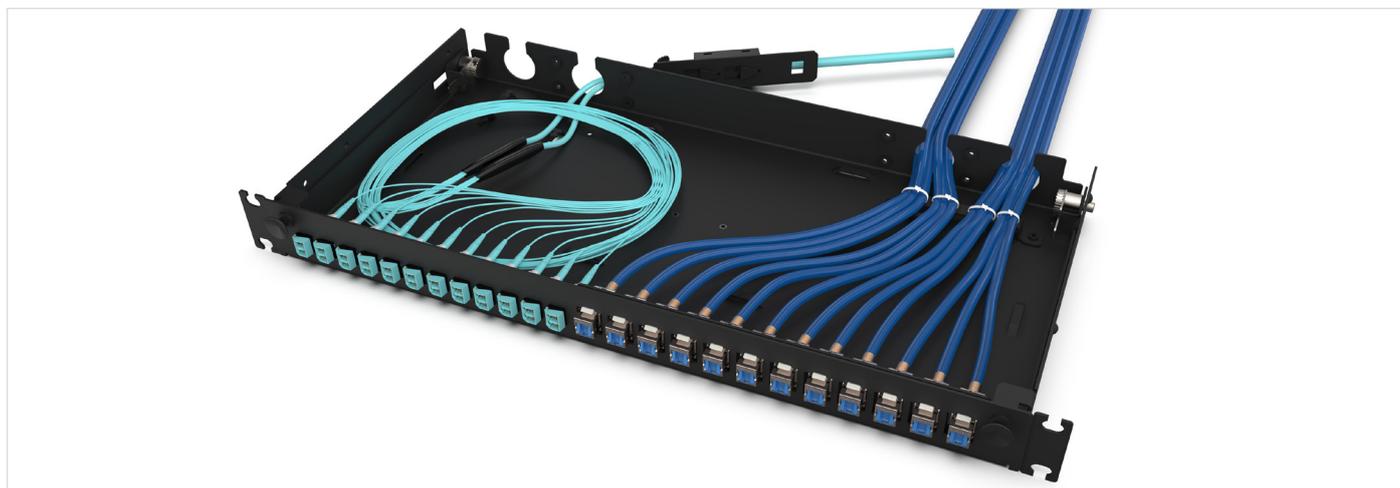

The Everon® Fibre Housing (LAN1) offers termination solutions for various applications in the LAN environment. Developed for 19-inch racks, the housings allow configurations for different connectivity needs as pre-terminated assemblies, field termination, or pigtail splicing. Everon Fibre Housing hybrid version (LAN1) can mix fibre and copper connectivity within the same housing to support special installations, for instance in colocation racks or multimedia applications.

Necessary accessories for field termination within the housing are included in the shipment. Accessories for pre-terminated assemblies or Plug & Play™ or EDGE™ solutions trunks and FTTD/FTTO applications have to be ordered separately.

Keystone copper module to be ordered separately.

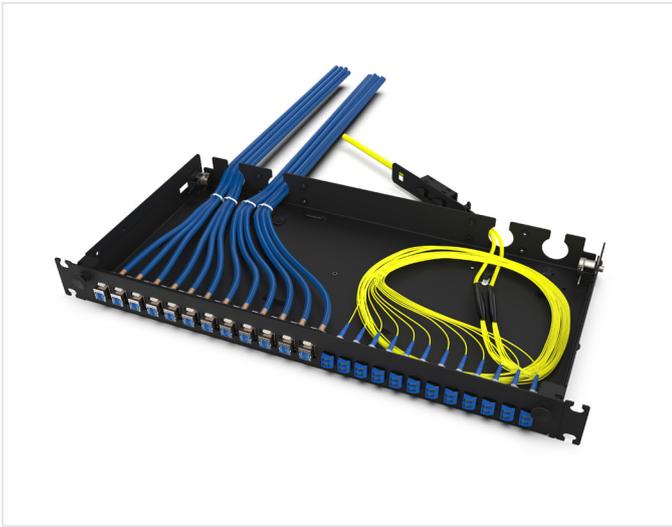

Keystone Jack Part Number	Product Description	Category	Jack Colour	Quantity in Pack	AWG Solid	AWG Flex	Channel Performance	PoE/PoE +	Transmission Speed

* Copper conducting tape is not included with xs500 jacks and needs to be ordered separately: CAXCSN-00000-C011

Everon LAN1 Fibre Housing-Hybrid, 24 Fibres, 12 Copper Jacks

Everon® LAN1 Fibre Housing – Hybrid Ordering Information

Everon LAN1 Fibre Housing-Hybrid, 24 Fibres, 12 Copper Jacks

Features and Benefits

Easy to remove top cover

No tools needed

Housing made of aluminium

Lightweight, but robust

Quick-mount feature

Allows single-person mounting of housing

Adapters with ceramic inserts and LC duplex with shutters

Minimal insertion loss and clean connectors

Low installation depth

Mountable in shallow cabinets or racks

12 fibre ports and 12 copper ports

Accepts up to 12x Everon copper Keystone modules while LC adapters are provided

Multiple labelling options

Port numbering above adapter or customised labels

Strain-relief brackets included

No need to order separately
